

EgglestonWorks

IVY

The EgglestonWorks **Ivy** is the Reference speaker whose development was truly based on being just that: a reference. Developed with legendary mastering engineer, Bob Ludwig, the Ivy continues to be the Reference in the main studio at Gateway Mastering Studio. Years of proven performance superiority and 22 drivers per channel ensure that it is the ultimate Reference in any system.

IVY SIGNATURE

The all-new **Ivy Signature Series** takes the best of the Ivy and tweaks it with custom finishing/aluminum plates, carbon fiber drivers, upgraded crossover parts and other proprietary improvements.

IVY: Single 1" dome tweeter, 12 - 6" drivers, 9 - 12" woofers
Response: -4dB @ 13 Hz - 24,000 Hz / **Efficiency** 87dB / **Impedance:** 70ohms nominal, 50ohms minimum
IVY REFERENCE: Single 1" dome tweeter, 12 - 6" drivers, 9 - 12" woofers
Response: -4dB @ 13 Hz - 24,000 Hz / **Efficiency** 88dB / **Impedance:** 80ohms nominal, 5.4Ohms minimum
Footprint: 15"x36"x76"h - 775lbs

ANDRA III

Few names in audio are as iconic as the **EgglestonWorks Andra**. The original Andra met with immediate critical and consumer acclaim becoming "Sterophile's" Loudspeaker / Product of the Year. The latest in the evolution of such an important product, **the Andra III**, does not disappoint. From its updated looks to upgraded drivers and crossover network, the Andra III is clearly worthy of such lofty lineage.

ANDRA III: Single 1" dome tweeter, 2 - 6" drivers, 2 - 12" woofers
Response: -3dB @ 18 Hz - 24,000 Hz / **Efficiency** 88dB / **Impedance:** 80ohms nominal, 6Ohms minimum
Footprint: 15"x18"x44"h - 220lbs

THE NINE

The EgglestonWorks design team once again raised the bar for all of the audio industry. The **NINE** occupies an important place balancing full range performance with all the details and delicacy inherent in the rest of the line.

THE NINE: Single 1" dome tweeter, 2 - 6" drivers, 1 - 8" woofer
Response: -3dB @ 27 Hz - 24,000 Hz / **Efficiency** 88dB / **Impedance:** 80ohms nominal, 5.6Ohms minimum
Footprint: 11"x16"x44"h - 120lbs

SAVOY

Based in large part on the Ivy and using many of its design attributes, the **Savoy** takes its place among some of the most meticulous and detailed speakers in the world. The Savoy is visually a scaled down Ivy, but sonically it holds its own in almost every auditory area.

The **Savoy Signature** continues the non-conformist design principals present in the other Signature Series. The Savoy is already winning awards world-wide and 5 pieces will soon be the mastering reference at the New Wisseloord Studios in the Netherlands.

SAVOY: Single 1" dome tweeter, 4 - 6" drivers, 4 - 12" woofers

Response: -3dB @ 21 Hz - 24,000 Hz / *Efficiency* 85dB / *Impedance:* 80ohms nominal, 50ohms minimum

SAVOY SIGNATURE: Single 1" dome tweeter, 4 - 6" drivers, 4 - 12" woofer

Response: -3dB @ 18 Hz - 24,000 Hz / *Efficiency* 88dB / *Impedance:* 80ohms nominal, 5.4Ohms minimum

Footprint: 15"x24"x59"h - 375lbs

FONTAINE II

The Fontaine II is a small foot print floor standing loudspeaker that embodies many of the aesthetic benefits of our popular Rosa at a more moderate price level. The Fontaine II and Fontaine Signature benefit from extra cabinet volume and innovative bass-reflex engineering.

FONTAINE II: Single 1" dome tweeter, 2 - 6" drivers.

Response: -3dB @ 41 Hz - 24,000 Hz / *Efficiency* 87dB /

Impedance: 80ohms nominal, 50ohms minimum

FONTAINE SIGNATURE: Single 1" dome tweeter, 2 - 6" drivers.

Response: -3dB @ 38 Hz - 24,000 Hz / *Efficiency* 88dB /

Impedance: 80ohms nominal, 50ohms minimum

Footprint: 8.5"x12"x41" - 70lbs

ROSA

The **Rosa** speaker is considered by many to be the sexiest speaker in the line. We have to agree. With its slender lines and perfectly proportional shape, the **Rosa** is definitely a beauty to behold. But don't let her good looks fool you, the Rosa's outward beauty is only surpassed by her performance.

The **Rosa Signature** continues the improvements and upgrades

present in the other Signature Series speakers with cosmetic enhancements as well as driver and network upgrades.

ROSA: Single 1" dome tweeter, 4 - 6" drivers.

Response: -3dB @ 21 Hz - 24,000 Hz / *Efficiency* 85dB /

Impedance: 80ohms nominal, 50ohms minimum

ROSA SIGNATURE: Single 1" dome tweeter, 4 - 6" drivers.

Response: -3dB @ 21 Hz - 24,000 Hz / *Efficiency* 85dB /

Impedance: 80ohms nominal, 50ohms minimum

Footprint: 9"x18"x38" - 150lbs

DIANNE

Taking the position of a true entry-level model, the **Dianne** aspires to introduce what is now quite an extensive line of audio excellence. In an audio world crowded with "breakthroughs," the EgglestonWorks design team has chosen a simple path to create a product that provides its owner with a truly enjoyable listening experience. With straightforward design

concepts and execution, The Dianne takes an important place among a line of award winning products.

DIANNE: Single 1" offset dome tweeter, 1 - 6" midrange driver
Response: -3dB @ 51 Hz - 24,000 Hz / Efficiency 88dB / Impedance: 8Ohms nominal, 6Ohms minimum
Footprint: 8.5"x12"x41" - 55lbs

ISABEL

The **Isabel** is a small, stand-mounted monitor of the highest caliber with respectable low frequency response. While the Isabel lacks the dynamics and foundation of our larger speaker systems, the clarity and presence of the music comes through the Isabel as well as any of our other models.

ISABEL: Single 1" dome tweeter, 1- 6" midrange driver
Response: -3dB @ 60 Hz - 24,000 Hz / Efficiency 87dB / Impedance: 8Ohms nominal, 6.3Ohms minimum
Footprint: 8.5"x12"x38" - 60lbs

HOME THEATRE GROUP

The EgglestonWorks Home Theater Group features innovative loudspeaker designs for both audiophiles and videophiles alike. These models combine the faithful musical reproduction of EgglestonWorks components and craftsmanship with the ability to complete a surround system that shares voicing characteristics in every channel. The Home Theater Group truly defines the convergence of high performance audio and home theater in a beautiful package.

KATHERINE CENTER CHANNEL: Single 1" dome tweeter, 2 - 6" midrange drivers
Response: -3dB @ 42 Hz - 24,000 Hz / Efficiency 87dB /
Impedance: 8Ohms nominal, 6Ohms minimum
Footprint: height:27" width:11.75" depth: 4" (Can be mounted in-wall or on-wall)-29lbs

KATHERINE ON-WALL: Single 1"Dome tweeter, 1 - 6" midrange driver.
Response: -3dB @ 42 Hz - 24,000 Hz / Efficiency 87dB /
Impedance: 8Ohms nominal, 6Ohms minimum
Footprint: height:27" width:11.75" depth: 4" (Can be mounted in-wall or on-wall)-24lbs

POINT 1 SUBWOOFER: Single 12" woofer with large magnet.
Low Frequency: flat below 20Hz / 300watt amplifier with adjustable crossover and level.
Footprint: 14"x16"x24" - 100lbs

ANDRA CENTER CHANNEL: Single 1" dome tweeter, 2 - 6" midrange drivers
Response: -3dB @ 78 Hz - 24,000 Hz / Efficiency 87dB /
Impedance: 8Ohms nominal, 6Ohms minimum
Footprint: 15"x18"x15.5" - 55lbs
